Children: None

I farmed for Rhinehart Farms for five years after school. I then spent a year and a half helping my younger brother (Ned) with his construction business. After that, I took a year off to build my own house in which we presently live. For the last few years I have been working in the electric and repair business as well as apartment management and just recently purchased the DC Car Wash. Chlo and I have been married for 17 years. We enjoy woodworking, leather working and gardening. In the last 20 years, I have joined and am currently a member of the American Legion and Commercial Club. I also belong to the Dallas Center Fire Department of which I am Assistant Chief and the Dallas Center Emergency Rescue Team.

Occupation: Meter Reader Supervisor at Iowa Power
Married: Steve Rogers, Underground Supervisor at Iowa Power
Children: Jacquelyn - 19 years old
Amy - 18 years old

My girls are both graduated, working and now living in Des Moines in their own apartment. This leaves Steve and I alone for the first time in our 13 years of marriage. We feel like newlyweds.

Besides grey hair which is colored and a few more pounds than high school, my health is excellent. I play competitive tennis and jog two miles each weekday. Steve and I sail at Saylorville on the weekends.

Our all consuming hobby is traveling. Give us a warm island in the winter with beautiful clear water for snorkeling and we are content as bugs in a rug. We've been enough places now that we have our favorites - we love London in the fall. We would have given anything to go to Australia for the America's Cup but we only lacked enough vacation time to fulfill all our planned destinations. But we won't miss Wimbledon next year.

COULD TWENTY YEARS HAVE REALLY GONE BY SO SOON!

I am sorry we will be unable to enjoy the class reunion with everyone. I know the country club at Panora is a lovely place. Each year my home is the gathering place of family and friends for an old fashioned Fourth of July picnic.

I am still working at the library in Dallas Center so please stop in and say "Hi" if you are home visiting.

For the past twenty years, I have been raising my 13 year old daughter, Laura. I have also worked as a dental assistant and am now the Librarian. My husband is the bakery manager for Dahl's Foods in Des Moines. He is also a wildlife enthusiast so we hike, fish, swim and enjoy as many State and Federal wildlife areas as time will allow. My daughter and I also are part-time geneologists. We are tracing family histories for both families. It is a fun hobby and we are learning a lot of history as we travel through the generations.

Address: 202 A Avenue South, Mt. Vernon, IA 52314
Occupation: Secretary at Cornell College
Widowed
Children: Julia - 13 years old
Aaron - 10 years old
Carl - 7 years old

In the 20 years since we left good ol' DC High (are we really THAT old?) I have lived in Des Moines, Oakland, Berkeley, by Effigy Mounds in northeast Iowa, Iowa City, on a farm in southern Iowa, Jamaica, Miami, and Mt. Vernon (the one in Iowa).

I have lived in apartments, communes, a tent, a chicken coop (without the chickens!), a geodesic dome, a mansion, a dirt floored two room lean-to, and normal everyday houses.

I have been a typist, a Girl Friday (what a title!), an insurance premium adjuster, a drug abuse counselor, a homemaker, and a secretary. I have also been a friend, a wife, a mother, a widow, a student, and hopefully an all around good person!

Currently, I am living in Mt. Vernon, Iowa, in a normal everyday house, working as a secretary, being a mother (of a lovely daughter and two gorgeous sons), being a student, a friend, and still working at being that all around good person!

Can hardly wait to see you all!

William A. CASTLES II

Address: 2601 Woodwind Court, Kirksville, MO 63501
Occupation: Director, Information Services at Kirksville College
of Osteopathic Medicine
Married: Roxanne
Children: Cara Ann - 2 years old

Majority of employment in the last 20 years has continued to be in the medical field. Since last reunion in 1977, I spent five years as Director of Public Relations of Keokuk Area Hospital (1978-1983). From 1983-1986 we lived in West Palm Beach, Florida where I was Vice President of Public Relations and Marketing of Bethesda Memorial Hospital. We moved to Kirksville in August '86 to assume current position.

For fun we travel. In the last year we've been to Vegas, Colorado, Miami Beach, Austin Texas and Denver in May. Being back in the midwest has allowed us to enjoy gardening, particularly flowers. We've built a gazebo in back of the condo this summer.

For the last 13 years, our only child has been a golden retriever. But we realize now in the last two years the big differences between a dog and our beautiful little girl. Frankly raising the dog was much easier. Ah, the adventures of parenting.

Other than that, tennis and swimming occupy what spare time we have which is not much. I am heavily involved in civic activities.

Looking forward to seeing everyone.

I certainly do not feel this old! I can hardly believe it has been 20 years already. High school memories seem like yesterday.

Although I have been a Pennsylvania resident all these years, I still claim to be an Iowan. I love it whenever those Hawkeyes play on national television and am a very vocal fan. I even wore my Iowa tee-shirt the day of their recent NCAA tourney game.

We are the proud parents of two sweet daughters who are helping us remember the chaos of puberty. These are challenging days.

I am slowly working on a Master's Degree in Social Work and am presently the director of Social Services for a large community care facility for mental health clients.

Mark KELLER

Address: UMN, Box 126, Kathmandu, Nepal
Occupation: Teacher
Married: Darlene, Teacher and Homemaker
Children: Micah - 9 years old
 Joel - 6 years old
 Luke - 3 years old

It would be lovely to meet you all again at this year's reunion. But since we are now working in Nepal that will not be possible. I am once again working in elementary teacher education. This time we have switched from Africa to Asia. We are working under the United Mission to Nepal. This organization provides health, education, agriculture, economic, and technical personnel for Nepal's development. Nepal is the world's third poorest nation. Poverty here means 50 percent of the children die before they reach age 5. Since only 20-30 percent of the population can read, education is a high priority.

We live in one of the few larger towns, Pokhara. Most areas of the country have no roads, no doctors, and little contact with the outside world. Radios and schools are changing that to some extent. In the past, Pokhara was a big trading town. Donkey trains traded salt and wool. The wool came from Tibet and high elevations of the Himalayan Mountains. The salt came from the Indian plains. The donkeys still pass our house yet today carrying mainly rice and salt.

Best wishes to all of you.

Judy LINT Silkebaken

Address: 1815 Arundel, Florissant, MO 63033
Occupation: Full-time student and mother
Married: Steve Silkebaken
Children: Derek - 13 years old
 Jason - 11 years old
 Jonathan - 8 years old

I am attending SIUE at Edwardsville, Illinois as a second degree candidate. I'm majoring in mass communications with a major in television/radio. In a year, I will be seeking a job at an advertising agency, radio or television station at a large company. I will be able to produce, direct and write scripts for broadcasting.

I am also very involved in the school system in Florissant. I just completed a two year term as Second Vice President for the PTG. I will be involved this year as a parent volunteer in the student writing lab at my son's, Jason and Jonathan, school Common's Lane Elementary.

You know the saying, "The family that Scouts together stays together." The Silkebaken's are a Scouting family. Steve is assistant Scout Master for troop 797 North Star District in St. Louis. Son Derek is Senior Patrol leader in Troop 797 and is a member of Varsity Scouts. Jason is a new beginning Scout in Troop 797 and Jon is a Wolf Cub is Scout Troop 942. And I, I am the one who stands at the air-conditioned door and says "Bye have a nice time!" And when they come home, I wash the camp fir smelly clothes and put them away until the next campout.

Living near St. Louis, we have been able to really enjoy all the varied activities that are available in a big city. Everytime we travel the 25 minutes to the St. Louis Arch, we pinch ourselves and say, "Do you believe that we are really here?" I never thought three and one half years ago that we would leave Iowa and call another place home. But, if you have to, why not a city that has a zoo, the St. Louis Cardinals and the Mississippi Waterfront. If you ever find yourself in or near St. Louis, call. You'll just find two misplaced Iowans enjoying the city but still thinking about Iowa and the great people who live there.

Nancy Jo LISTER-Settle

Address: 1401 Cherry, Dallas Center, IA 50063
Occupation: Secretary for Medical Office
Married: Jack Settle, Museum Woodworking at Living History Farms
Children: Morgan - 18 years old
John - 19 years old
Allan - 20 years old

I'm not only back in Dallas Center, I'm back on the same block where I grew up! My husband, Jack and I live in the stucco house behind my parents - with my son, Morgan, full-time, and Jack's son John, part-time. Jack's older son, Allan, is a free spirit in Key West, Florida. Jack works from April through October as the cabinet maker at Living History Farms in Des Moines. In the off season, he hustles commissions for handmade furniture or teaches workworking classes.

Sitting in Mr. White's typing class all those years ago, I swore I would never have a job where I typed all day and look at me now. I work as a medical secretary for five doctors in a very busy obstetrics and gynecology office in downtown Des Moines. The medical field is an exciting place to be these days and my job is constantly changing.

Morgan and John both graduated from high school this spring - Morgan from DC-G and John from Memorial High School in Madison, Wisconsin. Morgan's plans are still a bit nebulous, but he has the paperwork done to go to the University of Iowa this fall. John is going to the University of Wisconsin at Oshkosh.

Jack enjoys running and biking. He's a big city transplant, from Washington, D.C. and loves the rural life. I move at a slower pace, being a native and prefer walking and baking. The boys are in a constant state of flux but John is a serious bicycle racer and Morgan is a faithful weightlifter.

We see a lot of my (extensive) family - we number 27+ for Christmas dinner. We all spend a week together in northern Minnesota each July. I'm looking forward to this reunion - the highlight of this summer - and can't wait to introduce Jack to my old cronies! (And warm wishes to those of you who can't be here.)

We were married in June of 1971 and then moved to Waukesha, Wisconsin, where we lived for 11 years. I taught seventh grade math from 1971 thru December 1976. Our daughter Andrea was born in January 1977 which was the start of my career as house-mom. I worked for a furniture company for a year before the birth of our son, Adam, in July of 1981.

We made a major life change in 1982 when we moved to Dallas, Texas, where my husband, Chuck continues to pursue his career in banking. I have recently been taking courses to get my Texas teaching license and hope to return to teaching in the next year or so.

Where has 20 years gone? I still feel like the young kid back then, but my body doesn't agree. After four kids, the figure has been shot. How are things going in old DC? Lots of memories back there.

Terry, my husband's family, is having their once in a lifetime reunion on the 4th and we will not be able to come to the class reunion. Tell everyone hello for me.

Beside our children, we are also foster parents. We have no foster child at present, but we have had three different children live with us. I am still a housewife, but now I keep the books for the company that Terry and his dad have. We have completed most of our home on the lake here at Lake View. The view is gorgeous.

Have a nice reunion.

Occupation: Systems Support Administrator for the Banks of Mid-America
Divorced

Twenty years has gone by very fast. I can still remember the day we wore our caps and gowns.

I am a Systems Support Administrator for the Banks of Mid-America. We have banks in Oklahoma City, Norman, and Tulsa. I work in Tulsa but travel to Oklahoma City several times a month.

My daughter Kim and I live in Broken Arrow. She is very active in sports, so we are on the go. She is eleven years old now and I don't tell my age.

Looking forward to seeing everyone on July 4th.

Dwain SWALLOW and Julie BOLL Swallow

Address: Box 102, Redfield, IA 50233
Occupation: History teacher, coach, fisherman
Married: Julie, Art teacher, grades K-12 at Dexfield Schools
Children: Aaron - 6 years old

We have been living in Redfield and teaching for many years now. We are both head of our respective departments (no joke) which in Julie's case puts her in charge of herself.

Our jobs and extra assignments keep us fairly busy during the school year with Dwain currently coaching two sports.

We try to spend our summers enjoying our freedom from day and night schedules. Living in Redfield gives us a convenient starting point for travel to all parts of the U.S. (and Canada) when we get tired of canoeing the scenic middle Raccoon, fishing, and bicycling the highways, byways and bike trails of Central Iowa.

William WHITACRE

Address: 4950 S. Grant Street, Englewood, CO 80110
Occupation: Lawyer, Industrial Claim Appeals Panel
Married: Dayra Jensen, Medical Technologist, Gates Medical
Clinic
Children: None

I came to Colorado in 1976 after graduating from law school at the University of Iowa and I've lived here ever since. I was a staff attorney with Legal Aid in Denver until late 1982, and for the past few years I have been a state administrative law judge. I am currently a member of the Industrial Claim Appeals Panel, which is a three-person body that reviews appeals from the decisions of other administrative judges on claims for unemployment insurance and workers' compensation.

I married Dayra Jensen in 1980 (we met in Iowa City while I was in law school), and we have lived in Englewood (which is just south of Denver) since that time. We have an old German Shepherd and two cats, but no children. Dayra is a medical technologist and has been supervisor of the Gates Medical Clinic lab for the past six years. She currently is also attending classes at the University of Colorado to obtain a degree in computer engineering, and she is about to begin a new job with Gates as a computer systems manager.

My most recent interest is golf (after a long abstinence), and I have an old Corvette that I'm supposed to be restoring. Dayra and I also enjoy hiking and camping in the mountains, and we hope to buy a cabin in the near future. I have enclosed a recent picture. (In case anyone wonders, I've had the beard for about 15 years.)

I'm really interested to find out how everyone's doing. I hope you are all well and happy!
